Dear Parents

### Recycling IT Equipment

The school has been offered the opportunity to raise some additional funds from an IT Disposal Scheme through Stone Computers. Stone Computers are the largest privately owned UK hardware configurator and technology solutions provider. Their headquarters are adjacent to junction 13 of the M6. They are the only UK IT configurator with its own in-house recycling department.

Stone are willing to dispose of any old IT equipment or mobile phones or tablets (Android or Apple only) and if they are in working order and attract a resale market then they will return a share back to the school. The amount depends on the actual piece of equipment and any operating software it has. They will dispose of PC's, monitors, laptops, printers etc and they are accredited to wipe all data. They use Blancco which is a data wiping software to destroy 100% of your IT assets prior to refurbishment for re-use, parts recovery or IT recycling. They hold ADISA and DIPCOG along with a number of other accreditations. They are fully compliant with the Data Protection Act.

They will provide the school with a Certification of Disposal so you can be assured that this is perfectly safe.

If you have any old IT equipment or mobile phones or tablets that you are willing to donate please bring into school and we will organise with Stone Computers for collection.

If you have any further questions, please don't hesitate to ask or Mr Anthony Adams (Paignton/Erin/Noah's Dad) who is kindly organising this for the school. We thank-you for your continued support.

Kind regards

*A Kenny*
